

Soho Centre for Health & Care
29-30 Soho Square London W1

Historic Women's Hospital regenerated as a new integrated Health & Care Centre for Parkside Health NHS Trust. Modern accommodation has been inserted into a Grade II listed structure in a manner that provides up-to-date medical facilities yet preserves and enhances the historic and aesthetic features of the old building. This was a complex development carried out in a very restricted site in the Soho Conservation Area.

The Soho Centre won the London Region Modernisation Award in the 2000 NHS Nye Bevan Awards.
