

**Profile: Euan MacGillivray**

**Euan MacGillivray** BArch(Hons) DipArch RIBA Associate

Euan Joined Rolfe Judd in 2005 and was made an Associate in 2007. Euans expertise lies in delivering complex projects from initial concepts through to completion.

Euan is currently the Project Associate working on Carnaby Street. This mixed use development will comprise retail, residential and commercial units in the heart of this famous retail destination in London. He is also working on a complex commercial development in London's Piccadilly. The project - Stratton House is a listed building which requires sensitivity to its surroundings throughout all design phases.

Euan trained at Oxford Brookes University and South Bank University, qualifying in 1998. Prior to joining Rolfe Judd, he was an Associate with Norman + Dawbarn where he was responsible for mixed-use, office, retail and residential projects in the UK, Cyprus, Sierra Leone, Nigeria and Trinidad.
